

## APG Plant List

### Pre press

Mac & PC based environment configured for maximum file compatibility

Large format Epson inkjet printers used for proofing imposed pages – colour calibrated daily

Dainippon Screen workflow system utilising a combination of:

- Taigaspace for DTP processing
- Taigastream for PDF processing
- Trueflow for more complex processing

Screen CTP B1 plate setter

Screen CTP B2 plate setter

### Litho press hall

10 unit B1 KBA Perfector

- Prints any combination of colours up to 5/5 or 10/0
- Ideal for medium to long run 4/5 colour
- Can perfect board up to 700 micron i.e. cover material
- Spectral sheet scanner – 10 times more sensitive than the human eye
- Perfecting allows both sides of the sheets to be printed and compared for colour at the same time
- The UK's 1<sup>st</sup> Environmentally accredited KBA press

6 unit B1 KBA Perfector

- Prints any combination of colours up to 5/1 or 6/0
- Ideal for medium to long run 4/5/6 colour
- Spectral sheet scanner – 10 times more sensitive than the human eye
- Perfecting allows both sides of the sheets to be printed and compared for colour at the same time

5 unit B2 Heidelberg Speedmaster 74

- Prints any combination of colours up to 5/0
- Ideal for short to medium run 4/5 colour work

5 unit B3 Heidelberg Speedmaster 52

- Prints any combination of colours up to 5/0

### Digital printing

Xerox 5000 & Xerox 700 Digital presses

- Ideal for short run documents, booklets, brochures etc
- Cost effective for multi page documents in small quantities
- Ideal for personalisation in colour or black and white
- Full digital finishing equipment (collating, binding etc)

Our mixture of litho and digital presses allows us the flexibility to combine different elements of print. For example, we are able to litho print a booklet and bind in digitally printed sections with personalisation. Our variety of presses enables us to produce anything from one to one million copies, cost effectively, and in-house.

### Finishing

5 x Polar programmatic guillotine with full materials handling flowline, jogger and hoists

1 x SRA1 Heidelberg die cut & creasing cylinder

1 x B2 Heidelberg die cut & creasing cylinder

3 x B1 Folding machines with gate folding & burst binding attachments

2 x B2 Folding machines with gate folding attachments

1 x Heidelberg ST100 6 station stitching line with cover feeder

1 x Muller Martini Prima 6 station stitching line with cover feeder

1 x Duplo 12 station fold, stitch and trim unit

1 x Shrink Wrapping Line

### Despatch & warehousing

Stock control system

Despatch manager

4 x APG drivers
